AZ State Representative Ben Toma

January 14 2023 attached notice

Notice to all Members of the 56th Arizona Legislature:

The Arizona Citizen's Election Integrity Requirements

Notice to Agent is Notice to Principal and Notice to Principal is Notice to Agent

I, Christian Lamar, one of the citizens of Arizona (as seen in the Arizona Constitution Article 2 Section 2), Sui juris come to you, my elected trustees and servants, to receive due care and immediate action on the items listed in this Notice;

Arizona Constitution Article 2 Section 2: Political Power; Purpose of Government

All political power is inherent in the people, and governments derive their just powers from the consent of the governed, and are established to protect and maintain individual rights.

Notice that, We, the citizens of Arizona, have the responsibility to frequently command you, our trustees and servants, of your responsibilities and oaths which bind you to adhere to the will of those who elected you in positions of influence. We, the citizens of Arizona, elected you, and We, the citizens of Arizona, now require you to adhere to our will;

Arizona Constitution Article 2 Section 1: Fundamental Principles; Recurrence to

A frequent recurrence to fundamental principles is essential to the security of individual rights and the perpetuity of free government.

Maxim of Law IIb. The derivative power cannot be greater than the original from which it is derived. Noy, *Max.*; *Wing. Max.* 66; Finch, *Law*, b. 1, c. 3.

Maxim of Law IIg. When anything is commanded, everything by which it can be accomplished is also commanded. 5 *Coke*, 116.

Maxim of Law IIj. One has authority when he has a legal or rightful power to act. C.L.M.

Maxim of Law IIs. One lawfully commanding must be obeyed. *Jenk. Cent.* 120.

Notice that, We, the Arizona citizens command you to act on the following requirements as members of the 56th Arizona Legislature. These 9 commands necessitate immediate adjustment of, or removal of, all statutes which conflict with the following will of the citizens of Arizona;

- Elections will occur on one day, with preprinted paper ballots, in designated precincts, and will be hand counted on that given day.
- Mail in ballots not allowed, no duplication of ballots, no adjudication with electronic voting machinery
- Board of Supervisors will use ballots that are assigned a numeric value that corresponds to the voter registration for that day.
- Both primary and general election ballots will remain segregated by precinct, both before and after voting.
- Precincts size will be designated to allow for hand counting the same day as the election
- Emergency voting centers not allowed
- Disability, or other extenuating circumstances requiring special needs for voting, will be required to complete a sworn affidavit to the disability or circumstance requiring special voting privileges. The affidavit must be on file with the BOS at least 30 days prior to the election.
- Election judges will be required to compare the number of votes cast to the poll list of possible voters for that precinct and submit an official, signed report of that count
- The AZ Secretary of State procedure manual will be replaced with the Board of Supervisor procedure manuals that adhere to the specific guidelines but allow for unique county requirements, while still only following the Arizona Constitution & United States Constitution.

The 56th Arizona legislature shall not pass an annual budget that includes any expenditures for Maricopa County if 3 of the 9 above commands are not enacted into law with enforcement and signed by the Arizona Governor immediately. Ballot referendums or initiatives proposed to protect and enact election integrity with enforcement are an unacceptable burden to We the citizens of Arizona. These requirements are for the 56th Arizona legislature to fulfill per the United States Constitution and the Arizona Constitution.

The United States Constitution Article 1 Section 4 Clause 1: the Times, Places and Manner of holding Elections for Senators and Representatives, shall be prescribed in each State by the Legislature thereof;

The United States Constitution Article 4 Section 4: The United States shall guarantee to every State in this Union a Republican Form of Government.

The Pledge of Allegiance: I pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

Notice that We, the citizens of Arizona, will not allow the members of 56th Arizona legislature to reject serving the will of the People. The disregard and disdain from both bodies of the Arizona legislature towards serving the will of the citizens of Arizona, will no longer be tolerated from this day forward.

Arizona Constitution Article 2 Section 21: Free and Equal Elections

All elections shall be free and equal, and no power, civil or military, shall at any time interfere to prevent the free exercise of the right of suffrage.

Arizona Constitution Article 7 Section 7: Highest Number of Votes Received as Determinative of Person Elected

In all elections held by the people in this state, the person, or persons, receiving the highest number of legal votes shall be declared elected.

Notice that, YOU the trustees of Arizona, are here to serve us, the citizens of Arizona. We the citizens of Arizona are not here to serve you or to be your subjects anymore. You are expected to address all of the above-mentioned actions in a timely fashion. Within 2 weeks, we, the holders of the trust, the Arizona Constitution, require that bills will be submitted, discussed and passed that address 3 out of the 9 mentioned commands. The remainder will be submitted, discussed, and passed within another 3 weeks. These commands are a necessity to We, the citizens of Arizona. Once more, the 56th Arizona legislature shall not pass an annual budget that includes any expenditures for Maricopa County if 3 of the 9 above commands are not enacted into law with enforcement and signed by the Arizona Governor.

Maxim of Law 94m. We are never to resort to what is extraordinary as a remedy, until what is ordinary fails. 4 *Inst.* 84.

Maxim of Law 94n. Where the ordinary remedy fails, we must have recourse to what is extraordinary. *Black's*, 2d. 1002; *Bouv.* 155; 4 *Coke*, 92b, 93.

Notice that failure to comply with, and adhere to, the requirements of the citizens of Arizona will result in consequences from the People. Violation of trust will no longer be tolerated. The citizens of Arizona will implement the following remedy as needed;

Failure to comply with the will of the People, and failure to appropriately serve the citizens of Arizona, will result in:

- **Censure.**
- **Recall** with the appropriate AZ Legislative District.
- **Blocking you** from being able to serve the Republican Party of Arizona.

Notice that we the citizens of Arizona will not allow the violations of our US/State constitutional and God given rights to life, liberty, freedom, order, and safe and secure suffrage. This is a matter of necessity and must be considered. Your personal actions, as the elected servants of the citizens of Arizona, will be observed and acted upon. It is our desire that you realize your position, its requirements and duties, and act to serve the will of the People;

Notice that the citizens of Arizona have spoken and will continue to speak with further commands as previous requirements are implemented. Our desire is to praise and recognize the accomplishments of our trustees. However, any behavior contrary to the will of the citizens of Arizona will be immediately considered a trespass against the People;

We come to you in peace and harmony to encourage our trustees to serve us.

Affidavit and Notice to Hold a Revote of the 2022 Maricopa County AZ General Election by Right

Affiant, Christian Lamar, Sui Juris, one of the People (as seen in Arizona Constitution Article 2 Section 2), do present you with this Affidavit so that you may take immediate notice, by necessity, to the following claims that you may provide due care to the People of Arizona;

Claim 1: All government servants who have taken an oath to the Arizona Constitution are bound to allow for the People to bring them to a frequent recurrence to fundamental principles (see constitutional authority below):

Arizona Constitution Declaration of Rights Text of Section 1: Fundamental Principles; Recurrence to

"A frequent recurrence to fundamental principles is essential to the security of individual rights and the perpetuity of free government."

Claim 2: The Fundamental Principles of law are maxims which are universally accepted foundational principles of law that govern all areas on law and rights (see authority below):

"In Law, as with any science, there exists certain fundamental principles which form its basis and to which reference must be frequently made in its application. These fundamental principles in law are referred to as "Maxims of Law." [...] they have been universally accepted as being true rules and principles of law. They thus have become a part of the general customs and common law of the land of every civilized nation." - **Maxims of Law by, Charles A. Wiseman, A Selection of Maxims of Law, An English Version**

In describing the established maxims of Law, Sir Edward Coke, a leading English authority on the law, stated:

"A maxim is so called because its dignity is chiefest, and its authority the most certain, and because it is universally approved by all."

Claim 3: The maxims prove the following, in regards to the processes of holding elections and how elections are ran:

Maxim: Good faith must be observed.

Maxim: Good faith demands that what is agreed upon shall be done.

Maxim: The government is to be subject to the law, for the law makes the government.

Maxim: Obedience makes government, not the name by which it is called.

Maxim: All political Power is inherent in the people by decree of God, thus none can exist except it be derived from them.

Maxim: A frequent recurrence to fundamental principles, and a firm adherence to justice, vituperative, and original law, are indispensably necessary to preserve the blessings of liberty and good government.

Maxim: As usurpation is the exercise of power, which another has a right to; so tyranny is the exercise of power behind right, which no body can have a right to.

Claim 4: There is no grant of authority for Election Officers to change ways of elections, nor to validate any ballots that do not have chain of custody and are placed into the election in a manner not agreed upon as shown in the following maxims. Therefore, unless you can show a constitutional grant of authority, in writing by affidavit, you agree the 2022 general election is null and void:

Maxim: Things invalid from the beginning cannot be made valid by subsequent act.

Maxim: Void things are as no things.

Maxim: A thing void ab initio is one that never went into effect.

Maxim: Things grounded upon an ill and void beginning cannot have a valid or good perfection.

Claim 5: John Locke, an authority in law has declared the following in his "Two Treatises of Government," when government servants should act in any way that changes the Legislative laws approved by the people and the ways of elections (In the Chapter "Of the Dissolution of Government):

1. "Whoever introduces new laws, not being hereunto authorized, by the fundamental appointment of the society, or subverts the old, disowns and overturns the power by which they were made, and so sets up a new legislative." (Quote from Section 214)
2. "Thirdly, when, by the arbitrary power of the prince, the electors or ways of elections are altered without the consent and contrary to the common interest of the people, there also the legislative is altered. For if others than those whom the society hath authorized thereunto do choose, or in another way than what the society hath prescribed, those chosen are not the legislative appointed by the people." (Section 216).
3. "But yet so far as other parts of the legislative any way contribute to any attempt upon the government, ad do either promote, or not, what lies in them, hinder such designs, they are guilty, and partake in this, which is certainly the greatest crime men can be guilty of one to another." (Quote from Section 218)
4. "There is one more way whereby such a government may be dissolved, and that is: When he who has the supreme executive power neglects and abandons that charge, so that the laws already made can no longer be put in execution; this is demonstratively to reduce all to anarchy, and so effectively to dissolve the government." (Quote from Section 219)
5. "In these, and the like cases, when the government is dissolved, the people are at liberty to provide for themselves by erecting a new legislative differing from the other by the change of persons, or form, or both, as they shall find it most for their safety and good. For the society can never, by the fault of another, lose the native and original right it has to preserve itself, which can only be done by a settled legislative and a fair and impartial execution of laws made by it. But the State of mankind is not so miserable that they are not capable of using their remedy till it be too late to look for any." (Quote from section 220)
6. "There is, therefore, secondly, another way whereby the governments are dissolved, and that is, when the legislative, or the prince either of them act contrary to their trust. For the legislative acts against the trust reposed in them when they endeavor to invade the property of the subject, and to make themselves, or any part of the community, masters or arbitrary disposers of the lives, liberties, and fortunes of the people." (Section 221)

It is therefore my command, order and demand that you immediately acknowledge that the fundamental law must be followed at all times and that there are no provisions in the constitution of Arizona that grants authority for you to change the ways of elections, use processes that have never been agreed upon, or to maladminister an election. As the People, we have the fundamental power to alter, reform and abolish our constitution and form of government

(including all officers) at will. You agree that if you fail to respond by Affidavit, sworn under penalty of perjury, within 5 business days, showing where you have the Article 1 Section 4 clause 1 authority of the US Constitution to set the time, place, manner of a proper 2022 General Election with valid ballots in proper size, proper in-person ID verification, proper in-person signature verification for any failed ballot signature, proper surveillance on voting centers/polling places/election facilities/buildings, proper law enforcement of state election laws/election procedure manual, proper chain of custody, proper configuration of printers/equipment/machines, no ballot on demand printers/printing, no Dominion Voting Systems (or it's members/agents/employees/contractors), nor Runbeck (or it's members/agents/employees/contractors), nor Black Mountain Company (or it's members/agents/employees/contractors) in good faith immediately. Further, you agree that the People are acting in their inherent right to remove you should you not immediately open the door for the People to do a Revote in Maricopa County, based on their terms, without machines and with the People having full access to monitor said election. Further, you agree that in our Republic, the US Constitution does guarantee to every State in this Union a Republican Form of Government....and on Application of the Legislature, including Arizona. Furthermore, you agree that if you should interfere with this inherent right as seen in John Locke's Two Treatises of Government, Section 214, 216, 218, 219, 220 and 221, that you are knowingly, with full intent and malice, trespassing against the People's rights and acting in the greatest wrong that one could do against the People. Based on the attacks on the legislative in changing the ways of elections and rules, the attack on the People's liberty with lockdowns, attacks on the people's property and families, you have dissolved government and fallen from your original and intended purpose. Not doing an immediate Revote in Maricopa County, without following these commands, demands & this full order; will be considered a trespass of the highest degree.

**Affidavit and Notice to Hold a Revote of the
2022 Maricopa County AZ General Election by Right**

Affiant, Christian Lamar, Sui Juris, one of the People (as seen in Arizona Constitution Article 2 Section 2), do present you with this Affidavit so that you may take immediate notice, by necessity, to the following claims that you may provide due care to the People of Arizona;

Claim 1: All government servants who have taken an oath to the Arizona Constitution are bound to allow for the People to bring them to a frequent recurrence to fundamental principles (see constitutional authority below):

**Arizona Constitution Declaration of Rights Text of Section 1:
Fundamental Principles; Recurrence to**

"A frequent recurrence to fundamental principles is essential to the security of individual rights and the perpetuity of free government."

Claim 2: The Fundamental Principles of law are maxims which are universally accepted foundational principles of law that govern all areas on law and rights (see authority below):

"In Law, as with any science, there exists certain fundamental principles which form its basis and to which reference must be frequently made in its application. These fundamental principles in law are referred to as "Maxims of Law." [...] they have been universally accepted as being true rules and principles of law. They thus have become a part of the general customs and common law of the land of every civilized nation." - **Maxims of Law by, Charles A. Wiseman, A Selection of Maxims of Law, An English Version**

In describing the established maxims of Law, Sir Edward Coke, a leading English authority on the law, stated:

"A maxim is so called because its dignity is chiefest, and its authority the most certain, and because it is universally approved by all."

Claim 3: The maxims prove the following, in regards to the processes of holding elections and how elections are ran:

Maxim: Good faith must be observed.

Maxim: Good faith demands that what is agreed upon shall be done.

Maxim: The government is to be subject to the law, for the law makes the government.

Maxim: Obedience makes government, not the name by which it is called.

Maxim: All political Power is inherent in the people by decree of God, thus none can exist except it be derived from them.

Maxim: A frequent recurrence to fundamental principles, and a firm adherence to justice, vituperative, and original law, are indispensably necessary to preserve the blessings of liberty and good government.

Maxim: As usurpation is the exercise of power, which another has a right to; so tyranny is the exercise of power behind right, which no body can have a right to.

Claim 4: There is no grant of authority for Election Officers to change ways of elections, nor to validate any ballots that do not have chain of custody and are placed into the election in a manner not agreed upon as shown in the following maxims. Therefore, unless you can show a constitutional grant of authority, in writing by affidavit, you agree the 2022 general election is null and void:

Maxim: Things invalid from the beginning cannot be made valid by subsequent act.

Maxim: Void things are as no things.

Maxim: A thing void ab initio is one that never went into effect.

Maxim: Things grounded upon an ill and void beginning cannot have a valid or good perfection.

Claim 5: John Locke, an authority in law has declared the following in his "Two Treatises of Government," when government servants should act in any way that changes the Legislative laws approved by the people and the ways of elections (In the Chapter "Of the Dissolution of Government):

1. "Whoever introduces new laws, not being hereunto authorized, by the fundamental appointment of the society, or subverts the old, disowns and overturns the power by which they were made, and so sets up a new legislative." (Quote from Section 214)
2. "Thirdly, when, by the arbitrary power of the prince, the electors or ways of elections are altered without the consent and contrary to the common interest of the people, there also the legislative is altered. For if others than those whom the society hath authorized thereunto do choose, or in another way than what the society hath prescribed, those chosen are not the legislative appointed by the people." (Section 216).
3. "But yet so far as other parts of the legislative any way contribute to any attempt upon the government, ad do either promote, or not, what lies in them, hinder such designs, they are guilty, and partake in this, which is certainly the greatest crime men can be guilty of one to another." (Quote from Section 218)
4. "There is one more way whereby such a government may be dissolved, and that is: When he who has the supreme executive power neglects and abandons that charge, so that the laws already made can no longer be put in execution; this is demonstratively to reduce all to anarchy, and so effectively to dissolve the government." (Quote from Section 219)
5. "In these, and the like cases, when the government is dissolved, the people are at liberty to provide for themselves by erecting a new legislative differing from the other by the change of persons, or form, or both, as they shall find it most for their safety and good. For the society can never, by the fault of another, lose the native and original right it has to preserve itself, which can only be done by a settled legislative and a fair and impartial execution of laws made by it. But the State of mankind is not so miserable that they are not capable of using their remedy till it be too late to look for any." (Quote from section 220)
6. "There is, therefore, secondly, another way whereby the governments are dissolved, and that is, when the legislative, or the prince either of them act contrary to their trust. For the legislative acts against the trust reposed in them when they endeavor to invade the property of the subject, and to make themselves, or any part of the community, masters or arbitrary disposers of the lives, liberties, and fortunes of the people." (Section 221)

It is therefore my command, order and demand that you immediately acknowledge that the fundamental law must be followed at all times and that there are no provisions in the constitution of Arizona that grants authority for you to change the ways of elections, use processes that have never been agreed upon, or to maladminister an election. As the People, we have the fundamental power to alter, reform and abolish our constitution and form of government

(including all officers) at will. You agree that if you fail to respond by Affidavit, sworn under penalty of perjury, within 5 business days, showing where you have the Article 1 Section 4 clause 1 authority of the US Constitution to set the time, place, manner of a proper 2022 General Election with valid ballots in proper size, proper in-person ID verification, proper in-person signature verification for any failed ballot signature, proper surveillance on voting centers/polling places/election facilities/buildings, proper law enforcement of state election laws/election procedure manual, proper chain of custody, proper configuration of printers/equipment/machines, no ballot on demand printers/printing, no Dominion Voting Systems (or it's members/agents/employees/contractors), nor Runbeck (or it's members/agents/employees/contractors), nor Black Mountain Company (or it's members/agents/employees/contractors) in good faith immediately. Further, you agree that the People are acting in their inherent right to remove you should you not immediately open the door for the People to do a Revote in Maricopa County, based on their terms, without machines and with the People having full access to monitor said election. Further, you agree that in our Republic, the US Constitution does guarantee to every State in this Union a Republican Form of Government....and on Application of the Legislature, including Arizona. Furthermore, you agree that if you should interfere with this inherent right as seen in John Locke's Two Treatises of Government, Section 214, 216, 218, 219, 220 and 221, that you are knowingly, with full intent and malice, trespassing against the People's rights and acting in the greatest wrong that one could do against the People.
