

Mr. President,

It has been a great honor to represent my community in north phoenix as a State Representative and a State Senator. I have decided to not run for office again when my re-election is due.

I would like to control my exit in a fashion that would benefit my party and its Precinct Committeeman, by resigning now in order to appoint another Republican from my district to finish the term and run for their own as an incumbent.

I will continue to serve my state and party, but in a different capacity. Watching good conservative policies be vetoed has made me become more focused on a desire to grow our majority. I will continue to serve by leading a new non-profit I have founded, called the Arizona Prosperity Project. This new 501c4 non-profit will focus on growing the Republican majority in the legislature and electing conservative school board members across the state. The non-profit will also focus on developing good conservative policies around issues that impact every Arizonan.

Please accept this letter as my official resignation from the Arizona State Senate serving Legislative District 2 effective Friday, June 16, 2023.

Thank you, President Petersen, for your steadfast leadership of the Arizona Senate and the trust you put in me as Commerce Chair. It was an honor to serve with you.

.
